From Tractors to Printer's Ink in Refugee Camps

Refugees, now awaiting resettlement in European camps operated by the International Refugee Organization (IRO), a U. N. Specialized Agency, are learning new trades to earn livings in new homes and at the same time are keeping their skill at their former professions. A group of

newspaper writers and editors (left) practice their new knowledge of tractor repairing. After finishing their work at mechanics, they turn out newspaper copy for one of 35 journals published in refugee camps. At right, displaced editors of a Latvian-language refugee paper at work.

Weidenhamer Again Chairman Foothill Division School Board

John Rhodes Named Vice-Chairman and John Donald Secretary

T. C. Weidenhamer was re-elected chairman of the Board of Trustees at the first 1950 meeting of the Foothill School Division No. 38, held in the divisional office, High River, on Jan. 23. John Rhodes was elected vice-chairman and John W. Donald was reappointed as secretary-treasurer.

Henderson, Teare and Waines, Chartered Accountants, Calgary, were appointed as auditors for the year 1950.

Members present at the meeting were Mr. Weidenhamer, Mr. Rhodes, H. D. Johnson, and J. E. Gihlharder, together with Divisional Superintendent C. M. Laverty and Secretary John W. Donald. Willard Love and Chas. E. Fulton were unable to attend the meeting as the roads between Vulcan and High River were blocked with snow.

Discuss Building Plans
The Board gave some discussion to the plans for the proposed addition to the Vulcan school brick building. Mr. John Stevenson, Architect, being unable to attend the meeting owing to unfavorable road

conditions.

Find Van Service Satisfactory

A petition was received by the Board signed by the majority of parents of children riding on Van No. 8 operated by Eric T. Proehl, High River, complaining regarding the service being given on the route and charging that the vehicle was not suitable for the conveyance of the children. The board examined the school van in question and when interviewing the delegation regarding the matter it was stated that in the opinion of the board members the vehicle was entirely suitable and that the majority of the allegations made in the petition were unfounded. The Board was advised that the van operator, Mr. Proehl, very probably would resign as operator of the route, and the Board made it perfectly clear that they were entirely satisfied with Mr. Proehl's services and would regret to see him sever his connections with the Division as a result of this petition.

Further discussion was given to the matter of the proposed inclusion of the Okotoks S.D. No. 178 into the Division and the Secretary instructed to reply to the communication received following the last meeting of the two parties.

Sell Buildings

Tenders received in response to advertisements advertising the Arthur and Mayview School buildings for sale were considered and it was decided to dispose of the Arthur School building to Mrs. A. Kinney, Nanton, the Arthur Barn to L. C. Boomer, Nanton, and the Mayview School building to Alex Hilz, Vulcan, all bids accepted being the highest bids received.

Water Supply at Herronton

The Board gave consideration to the question of the water supply at the Herronton School and a letter was read from the Municipal Council of the Hamlet of Herronton. The Board decided to table for the present the request received at the Annual Meeting of Sub Division IV, that a well be drilled on the Herronton School grounds.

An interview was held with the local Board of the Cayley S.D. No. 1968, personnel of the latter present being Mrs. E. Keller, Mr. Norman Edey and Mrs. Len Beaton.

Table Other Business

As the weather was stormy and rapidly getting worse the Board Members decided that it would be risky to continue the Meeting and the remaining business was tabled until the next Meeting.

The Canadian-American border extends for 3,986.8 miles.

Many Canadian industries have life and accident insurance policies for their employees.

Earliest polo match on record was played by the Persians.

In Canada a white woman who marries an Indian becomes an Indian legally and an Indian woman who marries a white becomes a white.

Lake Superior — 31,820 square miles — is the world's largest fresh water body.

Newman-Marshall Wedding, California

In a candlelight ceremony Friday evening, February 3rd, Marjory Marshall, 6321 Marbrisa Ave., Huntington Park, California, who is the daughter of Mr. and Mrs. Joseph B. Marshall of Vulcan, Alberta, was united in marriage to Robert Newman, United States Navy, son of Mrs. Verna de Ramirez, of Huntington Park, California.

Setting for the ceremony was the First Baptist Church of Huntington Park, and Dr. Walter A. Pegg performed the double ring rites.

The bride wore a gown of ivory slipper satin trimmed with chantilly lace and pearl beading. Her fingertip veil cascaded from a tiara of satin and lace. She carried a bouquet of red roses and a white orchid.

The Maid of Honor, Miss Eva Spear wore a gown of rose brocade taffeta and carried pink carnations and sweetpeas. The other three attendants were gowned in green brocade taffeta and carried nosegay bouquets of yellow daffodils. Flowergirl, Robin Fowler, cousin of the groom, wore a gown of rose taffeta and scattered sweetpea petals in the bridal path.

Best man Norman Bolton, and ushers were white dinner jackets. "At Dawning" and "Because" were sung by Mr. Ralph Hanna, accompanied by Mrs. Kuyper at the organ. A reception followed in the lower auditorium where the couple received congratulations and best wishes from 200 guests.

The bride's mother wore a street length dress of blue crepe with blue and pink accessories, and the groom's mother wore a green taffeta dress with matching accessories. Both had corsages of carnations.

Following a honeymoon trip to Northern California, the Newmans will make their home in San Diego, California, where the groom is stationed aboard the U.S.S. Floyd's Bay.

Agricultural Short Course To Be Held Here Feb. 23 and 24

Sponsored by the Vulcan and District Board of Trade, an agricultural short course will be held in Vulcan at the Oddfellows Hall on Thursday and Friday, Feb. 23 and 24.

The course will get under way with a luncheon Thursday noon and the afternoon programs will start at 2:00 p.m. sharp each day. Tickets for the luncheon may be purchased at the Municipal Office or at the Canadian Bank of Commerce.

Election of officers for the Board of Trade will follow the luncheon on Thursday.

The two-day short course is an annual event sponsored by the Board of Trade and has proven very popular the past two years. Further details regarding the program are expected to be available next week.

Take Over Local Bowling Alley

Mr. and Mrs. L. Ritland and daughter of Holden, Alberta have now arrived in Vulcan to take over the bowling alley.

Before their departure from the Holden area they were guests of honor at many farewell parties given by their numerous friends. The Advocate joins in welcoming them to Vulcan.

Bantam Hockeyists Win By 7-2 Score

Vulcan Bantams chalked up their fourth win over the Champion Bantams in a league hockey fixture played at Champion last Friday. Both teams played good hockey and the two goal-keepers had plenty to do, the final score being Vulcan 7, Champion 2.

Goal Summary

1st period—1, Vulcan, Hunter; 2, Vulcan W. Roebuck (Chell); 3, Champion, Lucas; 4, Vulcan, Chell, (Jantzie).

2nd period—5, Vulcan, Chell (Jantzie); 6, Champion, Sparks; 7, Vulcan, Hansell; 8, Vulcan, Hunter (R. Roebuck).

3rd period—9, Vulcan, Chell, (Jantzie).

Vulcan Bantams next game will be against Taber in the provincial play-offs, at Vulcan on Saturday, Feb. 11 at 3 p.m. The winner of this home and home games series will go into the Alberta country semi-finals.

Thigh Hill W.I. To Cater Luncheon

The regular meeting of the Thigh Hill W. I. was held at the home of Mrs. Schmidt, in Vulcan, on Thursday, February 2, and despite poor road conditions 18 members and visitors were in attendance.

Business of the day included plans and arrangements for catering to the annual Vulcan Board of Trade banquet later this month.

The sum of \$10.00 was voted to the Ladies Rest Room to apply on fuel needs. Details were completed for the sending of a clothing parcel to the "adopted" family in the Old Country, and also for making a baby's layette.

Mrs. Lillian Deal was named delegate to represent the branch at the district convention to be held in Calgary in March.

Roll Call was answered with Hints and "Remedies on Health" and brought forth much helpful information.

The tea raffle was won by Mrs. Davis, and a delicious lunch was served by the hostess assisted by Mrs. Hawkins. Mrs. Earl Deal will entertain the March meeting.

Following a honeymoon trip to Northern California, the Newmans will make their home in San Diego, California, where the groom is stationed aboard the U.S.S. Floyd's Bay.

The bride's mother wore a street length dress of blue crepe with blue and pink accessories, and the groom's mother wore a green taffeta dress with matching accessories. Both had corsages of carnations.

Following a honeymoon trip to Northern California, the Newmans will make their home in San Diego, California, where the groom is stationed aboard the U.S.S. Floyd's Bay.

The Weather

Mild weather has prevailed this week, with a strong Chinook blowing. Daytime temperatures have been in the 35 to 40 above range.

Cloverleaf Rebekah Lodge Installation

At a recent meeting of Cloverleaf Rebekah Lodge No. 37, Mrs. E. Roebuck, District Deputy President, installed the new slate of officers for 1950. She was assisted by Mrs. J. C. MacMillan as Deputy Marshal, with Mrs. P. Bowie, Mrs. C. Rea, Mrs. L. Dawson, Mrs. M. Hawkins and Mrs. P. Simpson also assisting in the ceremony.

The new officers are: Mrs. J. Hanna, Jr. P.N.G.; Mrs. L. Orchard, Noble Grand; Mrs. A. G. Scott, Vice-Grand; Mrs. E. Roebuck, Recording Secretary; Mrs. J. C. MacMillan, Financial Secretary; Mrs. L. Lancaster, Treasurer; Mrs. A. Croves, Warden; Mrs. E. Bowie, Conductor; Miss Agnes Engen, Chaplain; Mrs. A. McIver, Pianist; Mrs. Percy Myers, R.S.N.G.; Mrs. P. Simpson Sr., L.S.N.G.; Mrs. L. Dawson R.S.V.G.; Mrs. A. Sproule, L.S.V.G.; Mrs. E. Deal, Inside Guard; Mrs. Deal, Outside Guard; Mrs. P. Bowie, Degree Captain.

After the meeting closed refreshments were served by Mrs. C. Rea and her committee.

Canada's total highway mileage is 553,370.

Frigidaire Bonspiel Well Under Way; Near Finals In First Two Events

54 Rinks Competing; Ice Holds Up Well Despite Warm Weather

Vulcan's second annual Frigidaire Bonspiel was in full swing this week and with half the week's play completed Wednesday night all that was lacking was a little co-operation from the weather-man. After two months of below-zero weather, a Chinook has held away all this week and although the ice was still in good shape Wednesday night and no draws had been missed there was some concern lest the weather might become even warmer.

The value of insulating the big building which houses the six sheets of ice in use this week has been fully proven. The skating rink ice, which, fortunately, was not brought into use for this 'spiel, was soon rendered unfit for curling, but play in the insulated curling rink has been able to go ahead.

The L. Wilhite rink from Claresholm, winners of the first event and the grand prize of four Frigidaire in last year's 'spiel, was making good progress towards repeating the feat at the time of writing Wednesday. Wilhite had advanced to the finals of the First Event by defeating Shearer of Carmanzy, Fletcher of Brant, Burley of High River and Fiddes of Gleichen. The other finalist in this event is James of Gleichen, who had beaten Dyce Allan of Vulcan, Rhysan of Lethbridge, Bill Allan of Olds and McIntyre of Viking. Wilhite and James meet at 7:30 Thursday night.

The Second Event was into the fourth by Wednesday night, with practically an all-Vulcan lineup. Wolfe, Spathe and the Del Graham hold three of the semi-final slots, while the fourth rink in the jewelry is skipped by D. McLaws of Calgary with Vulcan players comprising the rest of his rink.

54 Rinks Compete
33 outside and 21 local rinks are competing in the big 'spiel and all games are being played in the curling rink. Eight draws are held each day, the first at 8 a.m. and the last at 11:45 p.m. and the large crowds in attendance all day long are seeing some very fine curling.

A lunch counter is being operated by the members of the ladies curling club and is receiving good patronage. All available hotel rooms and many private homes are being used to house the visiting curlers.

Early Results
Results of games played up to 8 o'clock Wednesday are given below:

FARMERS (1st) EVENT

Going into the sixteens, Burley beat Erickson; Hamilton beat McAskile; Fletcher beat Drummond; Wilhite beat Shearer; Graham beat Loose; Fiddes beat Bond; McKay beat Green; Simpson beat Mensinger; McLaws beat Snowden; Bill Allan beat Matson; Rhysan beat Dyce Allan; McIntyre beat Matlock; L. Graham beat Thompson.

Some of the province's best curlers are represented in the 33 visiting rinks now competing in Vulcan's second annual Frigidaire bonspiel.

D. McLaws of Calgary, who skipped the provincial MacDonald Brier champion rink in 1948, is doing well in the 'spiel with a rink of Vulcan curlers.

Another MacDonald Brier curler now here is Bill Allan of Olds.

son; E. Patriquin beat Bester; Eraren beat Haga.

Going into the eights, Burley beat Hamilton; Wilhite beat Fletcher; Fiddes beat D. Graham; Simpson beat McKay; Bill Allan beat McLaws; James beat Rhysan; McIntyre beat L. Graham; E. Patriquin beat Braren.

Going into the fours, Wilhite beat Burley; Fiddes beat Simpson; James beat Bill Allan; McIntyre beat E. Patriquin.

In the semi-finals, played Wednesday afternoon, Wilhite of Claresholm beat Fiddes of Gleichen and James of Gleichen beat McIntyre of Viking.

The final in this event, between Wilhite and James, will be played at 7:30 Thursday night.

TOWN (2nd) EVENT

Going into the sixteens, Moore beat Yeomans; Wolfe beat L. C. Christensen; Northcott beat Banks Robinson beat Keenan; Spathe beat Munro; Matlock beat Scales; Bester beat Haga; Drummond beat Shearer; Bond beat Mensinger; Matson beat W. Christensen; Fletcher beat Hamilton; D. Graham beat McKay; McLaws beat Rhysan; L. Graham beat Braren; Simpson beat Burley; Bill Allan beat E. Patriquin.

Going into the eights, Wolfe beat Moore; Robinson beat Northcott; Spathe beat Matlock; Drummond beat Bester; Matson beat Bond; D. Graham beat Fletcher; McLaws beat L. Graham; Bill Allan beat Simpson.

Going into the fours, Wolfe beat Robinson; Spathe beat Drummond; D. Graham beat Matson; McLaws beat Bill Allan.

THIRD EVENT

Going into the sixteens, Crow beat Love; Peck beat Nicol; Walker beat V. Patriquin; McAskile beat Erickson; Hamilton beat R. Greene; Burley beat McKay; Yeoman beat Banks; Keenan beat Munro; Scales beat Haga; Shearer beat Mensinger; Moore beat Northcott; Bester beat Matlock; Bond beat Fletcher; L. Graham beat Simpson; Robinson beat Drummond; Matson beat Bill Allan.

These were all the available results in this event up to eight o'clock Wednesday night.

33 Outside and 21 Local Rinks In Big Bonspiel

Some of the province's best curlers are represented in the 33 visiting rinks now competing in Vulcan's second annual Frigidaire bonspiel.

D. McLaws of Calgary, who skipped the provincial MacDonald Brier champion rink in 1948, is doing well in the 'spiel with a rink of Vulcan curlers.

Another MacDonald Brier curler now here is Bill Allan of Olds.

Robinson Scores Eight-ender

Clarence Robinson's bonspiel rink came up with one of those few and far-between eight-enders while curling against Lloyd Graham's rink in the fours of the Third Event Thursday morning.

The eight-ender was scored early in the game and gave "C.J." such a commanding lead that the game ended after eight ends with the final score being 14 to 2.

This win advanced Robinson into the finals of the Third Event.

who is this year's Brier champion for Southern Alberta.

L. Wilhite of Claresholm, last year's big winner in the Frigidaire bonspiel, is back again with his strong rink and is making a strong bid to repeat his last year's triumph. Shapson of Bassano, finalist against Wilhite in the Frigidaire playoff last year, is also back, and Lloyd McIntyre of Viking, whose rink has the honor of having travelled the greatest distance to compete in the Vulcan 'spiel this year, is reported to have been a member of a former MacDonald Brier championship rink.

There are 33 outside rinks competing this year, with the towns they are from and the names of the skips as shown below:

Warner — T. Simpson.
Carmanzy — D. Shearer.
Lethbridge — C. Rhysan, F. Bond.
Calgary — Dr. Ciley, D. McLaws.

Claresholm — L. Wilhite, E. Matson, G. Braren.

High River — W. Burley, Ray Peck, R. V. Moore, Roy Greene.

Brant — Geo. Hamilton, Frank Fletcher, Mickey McKay.

Gleichen — R. A. Fiddes, Hugh James.

Champion — L. Bester, W. A. Keenan, Les Christensen, Bill Christensen.

Milo — G. Dishaw, H. Thompson, L. Northcott.

Barons — Ray Crowe, Roy Lyons.

Turner Valley — Ed Love.

Nanton — Gus Jensen.

Olds — Bill Allan.

Viking — Lloyd McIntyre.

Blackie — Clarence Yeomans.

Bassano — Art Simpson.

There are 21 local rinks in the 'spiel, with the following skips: Earl Patriquin, Earl Erickson, William Munro, Del Graham, Ross Walker, Bev. Banks, John Wolfe, Howard Spathe, Stan Scales, Dave Nicol, Harris Matlock, Cliff McErickson, Russell Robson, Dyce Allan, Burnell Drummond, Bill Loose, Lloyd Graham, Lawrence Haga, Fred Mensinger, Vern Patriquin.

School News

Phyllis Scotney of Grade XII, who is awaiting commencement of fall classes at a Calgary Hospital has left us and has accepted a position on the staff of the local hospital.

The pupils of Grades 7 and 8 bowled on Friday. LaRee Neville, Beth Saxby, Marilyn Scales and Donna Rushfeldt were again the winning team.

Kathleen Knive, Grade 1, formerly of Red Cross, has enrolled at Vulcan. Her parents have moved into the Lucas house.

Pupils neither absent nor late during the month of January.

The 1,150-mile Edmonton-Lake Superior oil pipeline moved a step nearer completion this week when the first shipment of 16-inch diameter pipe left Welland, Ont. The pipe—largest ever produced in quantity in Canada—was ordered by the Interprovincial Pipe Line Co. and Page-Hervey Tubes Ltd. built a new pipe mill to make it. Formerly pipe of this size had to be imported.

This modern continuous welding machine closes the seam in the 16-inch pipe (lower right) as it rolls under the big copper wheel. Welding is electric, with 3,000 amperes used in the process. The white liquid flowing over the wheel is an oil-and-water cooling mixture. Watching the pipe emerge from the machine is assistant welder Mike Labeau.

Municipal Govt. Problems

The main thing to keep in mind when considering the present problems of municipal government is that it was conceived as the broad base of our free democratic structure. Bringing the problems of public affairs right to the doorstep of the common people, pioneering a new nation, introduced factors which our forefathers cherished, exercised and defended. Then, local autonomy was accepted as a sphere of education and citizenship in which individual aptitude opened the door to higher public ambitions. Service on municipal councils was considered an honor and a duty and "democracy" was held to be something more than a mere phrase.

Today we find great changes and many new problems facing the present generation in the administration of municipal government. The rapid pace of industrialization and transportation; the trend to decentralization; the public demand for more and more social services have all combined to throw new weights and stresses into the realm of local government. At the same time we find a tendency among the younger generation not only to bypass the study of government but to shy away from public office and the responsibilities and criticisms that go with it.

Many of us are old enough to recall the earnestness with which our fathers tackled the problems of municipal government. They literally threw themselves into local election contests, accepted authority, withstood criticisms and carefully financed the public works that made the modern towns and cities we live in today. They viewed with a wary eye the paternalism of senior governments. They held that true democracy required rigid adherence to the principle of untrammelled local autonomy.

But the fast pace of modern living has brought vast changes which too many of us appear to accept with little study and with calm complacency. Municipal councils now accept and even demand more and more handouts from senior authority to finance local needs. Subsidies for education, hospitals, recreation, roads and streets, fire protection, or what have you, have become the order of the day. And with all this, local public debt seems to be steadily mounting with the large burden still carried by the property owners.

This mounting burden of purely municipal debt has gone along with greatly increased provincial subsidies. The old warning that handouts from outside sources simply invite increased spending seems to apply pretty well today. But there is a breaking point. There may well come a time when the source that pays the money calls the tune. With every hand-out goes along a weakening of local autonomy and a lessening of a sense of individual responsibility on the level of municipal government. This is not only an accepted theory but a growing fact.

Where the authoritarian principle is permitted to intrude, at that point precisely is where true democracy begins to fray and unravel. The consciousness of this trend today is brought forcibly home to the editors of weekly newspapers of Canada. They live and move among the very people who make up the grass-roots prosperity of the whole nation. No section of the public press is more concerned with preserving freedom than the weeklies, and true freedom cannot have full sway without the preservation of the fullest measure of local autonomy, exercised on the level of municipal government.

The time is here for a broad readjustment in this country of the whole scheme of responsible, representative government. There is a growing trend toward a better understanding in Dominion-Provincial affairs. It would appear to be the part and wisdom and statemanship to broaden the conferences on national welfare to include outstanding authorities on municipal government and build a new framework along lines indicated in the Sirois Report. Certainly we cannot afford much longer to continue along the casual lines that are too much in evidence all across Canada today in the realm of municipal affairs.

Diogenes, the ancient Greek with the lamp, liked perfume so well he scented his feet. The fumes rose and scented his whole body.

Concrete alone will not necessarily stop rats from getting into that storehouse or other building. A good amount of broken glass mixed with the concrete is reported to be effective.

All Nurses Have Role In Health Education

"We are accustomed to think of the public health nurses in the community as being much more concerned with the prevention of illness than their colleagues in our hospitals," states the Canadian Nurses' Association, in a National Health Week message. "Though the former group are dealing very largely with persons who are apparently well, advising them in the matter of immunization, the correction of physical defects, the importance of periodic health examinations, every nurse has an important role to play as a teacher of health."

"Early in the preliminary period of their training, the student nurses are given a thorough grounding in the principles of personal hygiene. They apply these principles to their own living habits. When they make their first contact with patients some two or three months after their admission to the school of nursing, they conscientiously observe and instruct their patients in these principles."

A detailed study was made by a special committee of one of the provincial registered nurses' associations to ascertain the degree to which a knowledge of current health practices and an awareness of the social implications of the various diseases is integrated into the undergraduate curriculum. The findings of this survey showed that student nurses in general are able to advise patients of community resources, clinics, and health services that are available. It was found that to a considerable extent the health aspects, including mental hygiene and community health, were integrated into every phase of study throughout the entire course.

There is an increasing trend toward providing brief periods of observation and, where possible, practical experience for as many student nurses as possible with public health organizations, particularly Victorian Order of Nurses. Their insight into the health practices that are being carried out every day gives the student nurse an appreciation of the value of prevention that she never loses, no matter what branch of nursing she may eventually go into.

RCAF To Loan Planes To Clubs

The Royal Canadian Air Force is planning to loan Canadian built training planes to the civilian flying clubs under a scheme designed to increase the skill of amateur pilots and, at the same time to provide a nucleus fleet for training military pilots in an emergency. This program, which will probably be announced officially this month, is predicted in the January issue of Canadian Aviation.

It is understood that the R. C.

New Dodge Deluxe Suburban

Comfortable seating for 6 passengers, and a large luggage carrying space are features of the 1950 Dodge Deluxe Suburban shown above. The rear seat may be folded to the floor, giving a carrying space of 84 cubic feet.

With the tail board down the loading area behind the front seat becomes 7 ft. 5 in. long, which makes the Suburban easily adaptable in many ways as a light commercial vehicle.

new Skills for Greater Production

A manufacturer of electrical equipment (right) learns new skills at a training-within-industry institute, set up at Paris with the help of the International Labor Organization (ILO), a U.N. Specialized Agency. The manufacturer will show the new methods he has learned to his foremen who will pass them along to their workers.

CARD OF THANKS

We wish to express our heartfelt thanks to Dr. Tompkins, Cpl. J. Hurst, to the Elks and Oddfellows lodges, the boys of Mensinger Motors and to all our many friends and neighbors who have assisted and been so kind to us since our accident.

—Melvin and Betty Emor and son

Sunday School at 10:30 a.m.
Worship Service at 11:15 a.m.
Friends in the district are welcome to attend.

A. F. will purchase about 40, and possibly up to 50, of the \$12,000 low-wing Chipmunk trainers from the de Havilland Aircraft of Canada at Toronto. These modern metal-construction aircraft then will be loaned to member clubs of the Royal Canadian Flying Clubs Association.

The aircraft will be subject to

recall to the RCAF in the event of an emergency. Assuming an order for 40 planes, investment in the plan would range from \$400,000 to \$500,000. The Chipmunks probably will be fitted with the latest equipment including blind flying instruments.

With The
District Agriculturist
Hugh Michael

Millions of bushels of seed is sown each year in the Province of Alberta. After the seed is placed in the ground there is not much the farmer can do that will influence the success or failure of the crop harvested.

Therefore all possible precautions should be taken before seeding to ensure that the seed sown is capable of producing the kind of crop desired.

There is much the individual farmer can do to achieve this end. First, the seed chosen should be pure as to type and of a variety that is adapted to local conditions. Each year the Alberta Varietal Zonation Committee meets to make recommendations to the farmers regarding the varieties found by the various experimental institutions to be best suited for the different agricultural areas of the Province. These recommendations are based on years of close study, observation and comparison common to agriculture in the Province.

In some instances the observations of farmers do not agree with those of the Committee. This is to be expected. In a great many of these cases the farmers' observation has been based on a relatively short period. Accurate measurements and other comparisons are not usually made. Very few farms or farmers are equipped or prepared to make comparisons under controlled conditions, over a sufficiently long period of time to lend any real significance to the results obtained. The testing of varieties is the duty of the various experimental institutions, involving the co-ordinated work of many highly trained specialists.

This year Marquis wheat has been deleted from the recommended list. At one time this variety occupied between 80 and 90 percent of the area in Western Canada devoted to the production of Spring Wheat. Past performances and records must not be regarded as the ultimate; otherwise progress would cease. After years of testing and comparing, there is adequate proof that Marquis consistently yields lower than Thatcher. In view of its lower yield, late maturity, and susceptibility to rust, justification could not be found to keep it on the list of recommended varieties.

The varieties on the recommended list for Zone 2, which includes all Southern Alberta East to a line halfway between Lethbridge and Taber, are as follows—Wheat

Thatcher and Saunders. Saunders is only recommended for the Western and Northern parts of Zone 2. Oats—Ajax, Eagle, Victory, Barley—(dry land) Compana, Newell, Titan and Olli for Wild. Oat control necessitating early maturity. Flax—Dakota, Redwing, Royal, Matting Barley—Montcalm and Olli. Additional information may be secured from the Office of the District Agriculturist.

Devaluation of the British pound constitutes a threat to the jobs of 95,000 Canadian textile workers.

Seven out of ten Canadian homes are wired for electricity. Australia, geologically, is the oldest continent.

Plan Grounds To Suit the Location

As each individual property suggests a different style of landscaping, only general rules for ornamental planting can be made. It must be left to the individual to assess the possibilities for beautification — and the defects — and emphasize the former and screen the latter by the proper use of shrubs and trees.

The type of architecture of the house, the position and character of trees and shrubs already on the grounds, the slope and general characteristics of the land and any natural element of beauty must be taken into consideration, when working out the overall plan, says W. T. Blair, in charge of ornamental gardening, Dominion Experimental Station, Kentville, N.S.

Certain views within the grounds such as boundary fences, garage and back areas, as well as views outside of the grounds of the same nature, should be either wholly or partly screened by ornamental plantings. On the other hand, pleasing vistas outside the grounds should be preserved in such a manner that they can be viewed from those portions of the house and grounds where the family spends most of its leisure time. Ornamental plantings then should conceal defects and emphasize those elements which are most pleasing.

Avoid straight lines wherever possible and strive to produce a natural and graceful effect rather than an artificial, man-made effort. Plant the shrubs in groups, using several specimens of a few varieties only, rather than one specimen only of a number of

varieties.

Avoid meaningless, isolated specimens about the lawn. Naturalistic groups give character to the design, each group consisting of several plants. It is advisable to use the same varieties in repeated groups, but slightly different combinations.

Plantings should be massed about the base of the buildings, leaving about one-third of the foundation visible; also grouped about the curves and junctions of walks and drives, and massed about the boundaries and corners.

Do not plant too close to buildings. Three feet is about the minimum distance. Shrubs which when planted seemed to have plenty of room often show signs of crowding at maturity.

If all the shrubs required cannot be purchased immediately an alternative is to supplement the first planting with native species, such as spruce, pine, hemlock, replacing these with the flowering shrubs as occasion permits.

Finally, plant as early in the spring as possible so that shrubs may become established before the heat of summer.

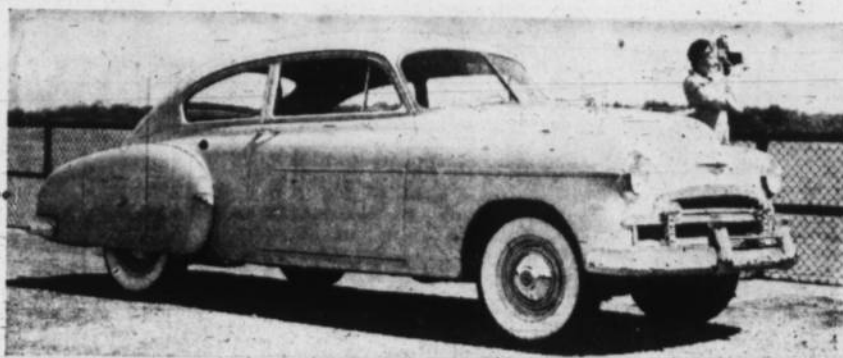

1950 Chevrolet Now on Display

The new Chevrolet for 1950, announced by General Motors, offers such highlights as new carburetion, increased horsepower, stronger and safer body construction, new colors and new two-tone Fisher interiors in the deluxe models.

Available in 11 models, each mounted on 115-inch wheelbase, the new Chevrolets have been stepped up to 92 horsepower, and feature a new "Power-Jet" carburetor which eliminates the "lean" periods in gasoline feed and affords quicker warmup in cold weather. The "Power-Jet" carburetor also ensures better performance at low speeds and on hills. Larger exhaust valve capacity helps power output.

As in the past, Chevrolet for 1950 is available in two series, Styleline and Fleetline. Styleline models include two-door sedan, sport coupe, and four-door sedan in standard or deluxe, and a standard business coupe. Fleetline offers two and four-door sedans in standard or deluxe models.

In body construction, box section roof rails have been introduced to replace channel sections. This results in increased body rigidity, added strength and greater safety for passengers. The radiator grille has been redesigned and

CHEVROLET FOR 1950 offers increased horsepower, new carburetion, and a choice of 11 models in a variety of new colors, according to a General Motors announcement. Also featured is a redesigned front grille, improved body construction, which makes for added rigidity and greater strength; and new two-tone interiors on the deluxe models. Shown above is the Fleetline Deluxe 2-Door Sedan.

bumper guards are higher and stronger. The "T" handle on the rear deck is replaced by a new stationary, ornamental handle. The tail lamps are redesigned to be more easily seen from the side.

Body interiors feature two complementary shades of gray used as a basic color theme. Simulated carpet rubber floor mats have been introduced into the rear compartment. Long-wearing and easy to clean, the new material closely resembles pile carpet. Simulated carpet inserts are also used

in the front compartment of deluxe models. On standard models, solid, ribbed rubber is used in front compartments.

The new carburetor introduces a concentric float bowl which prevents any "starvation" of the fuel metering jet regardless of sudden starts or the level of the road. Other highlights include a central location of the main discharge nozzle to eliminate gas spillage and a guard against vapor lock through the "bedding" of the metering jet in cooler fuel. More pos-

sitive operation in cold weather is also claimed.

A direct drain has been added to prevent gasoline stains on rear fenders from fuel spilled during filling, ventiplanes modified against wind roar, and improved rear vision mirror and glove compartment light repositioned to exclude glare are some of the other advances adding to 1950 Chevrolet quality. A novel touch is the inclusion of a whistle on the gas tank vent pipe to warn of approaching overflow.

REGARDLESS OF PROPHECY TO THE CONTRARY... FLAX PRICE IN 1949 WAS GOOD.

TOWN OF VULCAN

NOTICE OF
ANNUAL MEETING

OF ELECTORS

PUBLIC NOTICE is hereby given that a meeting of the Electors of the town of Vulcan will be held in the I.O.O.F. Hall Basement, Vulcan,

on

Mon., Feb. 13, 1950

at 7:00 p.m.

For the purpose of receiving the reports of Mayor, Secretary-Treasurer, Auditor and Chairmen of the various committees of the Council for the year ending the thirty-first day of December 1949.

Dated at Vulcan this 30th day of January, 1950.

EDNA M. FARR, Sec.-Treas.

Farm Fires
Cause Heavy Losses

Farm fires in Canada annually cause an estimated \$10,254,000 loss of farm property, according to a survey made by the Dominion Bureau of Statistics. Only 37 per cent of this loss was covered by insurance, indicating that a relatively small proportion of farm property is adequately insured against fires.

It is estimated that 45 per cent of the 8,000 fires occurred in barns or outbuildings. The farm house was the location of 38 per cent of the fires, and 15 per cent were stubble, bush or grass fires. The remaining two per cent of the fires concerned machinery and equipment. In addition to buildings, including the farm home, it is estimated that farm equipment was lost or destroyed in 16 per cent of the fires and equipment and livestock in 15 per cent.

Survey figures show that farm fires occur with considerable frequency and show considerable seasonal variation, being the most common in late spring and summer. Nearly half of all farm fires occur in the four months of May to August.

Anglers' note—Fish are generally near-sighted.

GOOD SEED FACTOR
IN FIGHTING WEEDS

Good seed is better able to fight weeds. To be certain of obtaining good seed, buy only certified or registered seed. These grades are derived from crops inspected in the field and for which certificates are finally issued by the Plant Products Division, Dominion Department of Agriculture. Certified Seed and Registered Seed are legal grades under the Seeds Act of Canada. A variety is accepted for registration only after it has been carefully compared with other varieties and found to be deserving of a place in some part of the Dominion.

Registration or certification of seed implies that the crop from which it has come must have been inspected in the field and found to have the required degree of purity of variety and kind. It must also be free from weeds and seed-borne diseases within certain limits. Before seed can be sold registered or certified, it must have been subjected to field inspection as well as a purity and germination test, and, if up to a certain specified standard, it is tagged and sealed in accordance with the regulations prescribed by the Seed Act.

Ontario fishermen think new nylon nets are too good. The sparkle of the net attracts so many fish that the piscatorial population may be endangered.

\$400,000 SURPLUS IN
MOTOR ACCIDENT FUND

A surplus of \$400,000 is reported in the Automobile Accident Indemnity Act unsatisfied judgement fund, operated by the provincial government.

Officials of the Alberta Motor Association pointed out recently that this organization has passed a resolution urging the provincial authorities to increase the amount of the benefits under this fund. It is believed that this step should be taken without delay.

Just what action the province will take this year still is in doubt. While there have been suggestions that \$1 extra charge on motorists, imposed when they pay their annual license fee, should be suspended, provincial authorities say no decision has been made on future policy.

It is recalled that the report of the special legislative committee on automobile insurance said the accident fund should not exceed \$250,000. Now that it amounts to \$400,000, the question is whether the collection of further payments by motorists should be suspended, whether a substantial sum should be devoted to carrying on of adequate drivers' tests, or whether benefits under the act should be extended.

No doubt this will be decided prior to the opening of the regular session of the legislature Feb. 23.

The Agricultural
Outlook For Canada

During 1949, employment and total production continued to expand. The physical volume of exports is slightly lower, with further declines almost certain in 1950. Assuming the continuation of reasonably prosperous conditions in the United States, agricultural sales there should be maintained, although perhaps not in a quantity sufficient to absorb all exports diverted from other markets. Domestic requirements might expand somewhat.

In 1950, a drop in egg, poultry and a few other farm products is anticipated. In some areas, a further shift from livestock to grain production will take place, although in general livestock and dairying should be maintained at 1949 levels. Hog marketings will increase and fall back within the year.

The total farm surplus situation will be aggravated in 1950, although not necessarily for the same commodities. Net farm cash income will be reduced more sharply than total cash income, owing to slower adjustment of non-agricultural prices.

The International Situation

The world of economic recovery has varied greatly between areas since the war. Industrial and mineral production is now running at 40 per cent above 1937 levels. Expansion, though continuing, is slowing up.

Both the volume and value of world trade continued to expand in 1949, but its flow remains badly out of balance. United States export surplus was \$3.25 billion while Western European countries showed an import surplus of \$3 billion. This situation is the basis for the exchange problem.

Already the deficit countries have adopted many restricting devices to control imports from the dollars. These restrictions, though unavoidable, have already had a serious impact on world trade. It was evident that, if extended, such measures would weaken deficit and surplus countries alike.

The devaluation of the pound sterling was decided upon at a conference between representatives of the United States, the United Kingdom and Canada. The purpose is to increase dollar earnings in the sterling area. Devaluation is expected to achieve this by reducing the prices of goods exported from sterling to dollar areas. Similarly it will tend to limit the pre-

sent heavy trade adverse to sterling.

In other words, the adjustment of prices is now substituted for trade restrictions, in an attempt to balance world trade and payment problems.

However, the advantages of devaluation may be lost (1) by inflation in the sterling area; (2) increased consumption in sterling countries or a lack of determination to export to dollar markets; (3) the dollar countries must be prepared to encourage imports from the sterling area.

The Canadian position differs from that of the United States. The surplus in Canada's balance of payments is small. She cannot afford an overall increase in imports. While it is in Canada's interests to buy much more from overseas, such imports must largely replace goods now obtained in the United States. That is the reason for a decrease of 10 per cent in the value of the Canadian dollar. This move is designed to decrease imports from the United States and to increase imports thereto.

European Recovery Program

The United States European Recovery Program has largely determined the present position in world trade. The program has supported the Canadian export trade. The Organization of Economic Co-operation Administration had, until the end of October, 1949, authorized participating countries to make purchases valued at \$7 billion. Of this figure, \$930 million, or 13 per cent of the total had been authorized for purchase in Canada. Agricultural commodities accounted for \$481 million and wheat was most important with \$296 million.

The present problem is associated with declining E.C.A. assistance which it is planned to terminate in 1952. Not only are expenditures under the administration being reduced but Canada is affected through non-authorization for off-share purchases of agricultural commodities which are surplus in the United States. As this list lengthens, more and more of Canadian farm exports will have to be paid for from dollars earned or by drawings on the Canadian loan.

Agreements on Tariffs

The General Agreement on Tariffs and Trade negotiated at Geneva in 1947 is now in effect. To protect their balance of trade position, however, many countries have found it necessary to apply trade restrictions. The United States can afford imports and Canada has benefited accordingly having exported goods valued at \$1.5 billion in 1948, as compared to \$1 billion in 1947.

The Anney tariff concessions have not yet been put into effect.

The Price Situation

Lower commodity prices are likely to result in 1950 following a United States trend in that direction. However price reductions on goods exported to the United States will be partially offset by price gains resulting from devaluation of the Canadian dollar.

Attempts are being made to grow cotton commercially in the southern part of Alberta.

In 1945 the Federal government had an \$865,000,000 investment in capital goods and housing. By 1948 this totalled \$2,600,000,000.

AUDITOR'S CERTIFICATE

I have audited the accounts of the Town of Vulcan for the year ending December 31st, 1949, and have compared the said accounts with their relative vouchers and certify that in my opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Municipality, according to the best of my information, the explanations given to me and as shown by the records, subject to any qualifications mentioned in Auditor's Special Report herewith.

Dated at Vulcan, Alberta this twenty-fifth day of January, 1950.

Signed: D. D. McQueen, Vulcan, Alberta.

—AUDITOR'S SPECIAL REPORT—

The Revenue Fund Liabilities Statement contains the item of \$17,536.90 owing to the Dominion Construction Company on the contract for sewer and water installation. This is according to the records of the Town. A letter from the Company dated January 23rd, 1950, shows the amount due as \$19,584.18, and is subject to the following remarks contained in their letter "the above figures are subject to correction by the engineers and further checking on our part—this will be adjusted when the final work is done next spring".

The figures showing the sewer assets and the water utility assets were supplied to me by the engineers, Messrs. Davis & Associates.

The Town issued a further debenture in the sum of \$22,000.00 dated December 1st, 1949, repayable in fifteen yearly instalments of varying amounts of principal and interest. The issue was sold at 99.00 plus accrued interest. The interest rate is 4 1/2%.

The Revenue Surplus account has been written down through a reserve in the sum of \$35,000.00 to offset the asset of \$35,558.23 due from the Water Utility Account to the General Revenue Account. I consider it necessary to show the Revenue Surplus Account at its true value in liquid funds to provide for the general revenue. As the amount due from the water utility account is invested by that account in water fixed assets, no revenue from this source is available until the water utility shows an operating profit.

Canadian Industry

Industry expansion in Canada is proceeding at a more rapid pace than is generally realized. Some 260 new plants have been established in this country from abroad during the last two years. Approximately 180 of these firms are branch plants of well-known United States concerns, sixty being engaged in the development of the oil industry. Some sixty companies originated in Great Britain and twenty other countries. Most of these firms are now engaged in the production of goods which, in the main, would otherwise have involved an outlay of American dollars, or are committed to such production, and are providing additional employment for some 8,000 Canadians.

Canada is expanding more rapidly in relation to her gross national product than the United States, the most highly industrialized country in the world. Canada is spending more on goods and services to improve the standard of living, and also expanding the capital structure of the country at a higher rate than ever before. Total capital investment in 1949 reached a peak of 3.3 billion dollars, and it is expected that the figure for 1950 will be approximately the same.

The development of industry in Canada must always, in the final analysis, be a product of individual initiative. The individual is the dominant factor in our philosophy of life. In fact, industrialization in Canada means private individuals and private companies starting new businesses or expanding existing ones. In this effort, governments can help, but the help is effective only if sufficient initiative and vision are forthcoming from the business community.

Champion

Mrs. Geo. Taylor of Calgary spent several days last week visiting at the home of her son-in-law and daughter, Mr. and Mrs. Ken Bloxham.

Mr. and Mrs. M. Weiss spent several days in Calgary last week at the home of the former's parents, Mr. and Mrs. E. Weiss.

Mr. and Mrs. Joe Fath were visitors in Lethbridge for several days last week.

Mrs. Art. Ulrich and children, Dwight and Monica, are visiting for two weeks at the home of the former's parents, Mr. and Mrs. J. Thuot, Meyronne, Sask.

Mr. and Mrs. Walter Smith and daughters, Bonnie and Donna, spent the weekend in Calgary at the home of the former's parents, Mr. and Mrs. E. Seland.

Patsy and Douglas Smith were weekend visitors in Vulcan at the home of their grandparents, Mr. and Mrs. Al Miller.

Miss Ruth Brett of Vulcan spent Sunday at the home of her parents, Mr. and Mrs. Ab. Brett.

Mrs. F. Fleming and three children left last Friday for Evansburg, Alberta where they will visit for the next two months at the home of the former's parents, Mr. and Mrs. J. Paron.

Mrs. M. Jones spent the weekend in Lethbridge visiting with her sister, Mrs. Harry Severson of Enchant, who is a patient in St. Michael's Hospital.

Mr. and Mrs. Johnny Anderson spent several days in Lethbridge last week.

Mr. Tim Barry spent several days in Edmonton last week visiting with his father, Mr. M. Barry.

Mr. and Mrs. George Smith and

son, Roger, were Lethbridge visitors on Saturday.

Mrs. E. Howg of Calgary is a visitor at the home of her son in law and daughter, Mr. and Mrs. M. Jones.

Mrs. M. E. Anderson and daughter Florence of Lethbridge spent the weekend at the home of the former's son-in-law and daughter, Mr. and Mrs. George Hummel.

Mr. Ray Warren was a business visitor in Lethbridge on Friday.

Miss Elsie Gordon was a visitor to Lethbridge on Friday.

Miss Ruth Marshman spent the weekend in Vulcan at the home of her uncle and aunt, Mr. and Mrs. Cliff Marshman.

Mr. S. Elliott was a business visitor in Lethbridge on Friday.

A rink comprised of Mrs. M. Mahoney, Mrs. H. Jopling, Mrs. J. Marks, and Mrs. R. Cunningham of Gleichen, took part in the ladies' bonspiel held in Gleichen last week. Although the ladies were not successful in bringing home a prize, they report a very enjoyable time was had.

Mr. Bob Long was a business visitor in Edmonton last week.

Mr. and Mrs. Al Miller of Vulcan were Sunday visitors at the home of their son-in-law and daughter, Mr. and Mrs. George Smith.

Mr. and Mrs. B. Bach returned by plane last week from Rocommon, Ireland, where they spent the past two months visiting at the home of the latter's parents, Mr. and Mrs. J. Murray.

Mr. M. Beingsner was a business visitor to Lethbridge on Saturday.

Four rinks are taking part in the open bonspiel being held this week in Vulcan.

Carmangay

Bud Brandvold, from Sharples, Alberta is visiting his parents, Mr. and Mrs. Len Brandvold.

Mr. and Mrs. Digory and son and Bonna and Janice Anderson, from Blackie, spent the weekend at the home of Mr. and Mrs. D. H. Russell. Mrs. Digory is attending the Ladies Bonspiel in Calgary this week.

Mr. and Mrs. D. H. Russell and Mrs. W. Moore were Lethbridge visitors on Thursday.

Ivan Stager from Vulcan is visiting with his brother and sister in law, Mr. and Mrs. Ralph Stager.

Chris Hubka, young daughter of Mr. and Mrs. Bob Hubka, has been a patient in the local hospital for a few days.

Ivan Ohler is spending three weeks in Calgary attending the Technical School where he is taking a course in Welding.

Mrs. Robert Clark was a Thursday visitor in Lethbridge.

Mrs. Doreen Smith and children are spending a holiday visiting with her sister in Taber.

Mrs. Bathyky and two sons were Lethbridge visitors on Saturday. The boys take music lessons while there.

Miss Dersch and Miss Kneiss were visiting in Claresholm over the weekend.

Mrs. Lethrie Burke and daughter Daema were Lethbridge visitors on Saturday.

Due to the bad roads many of the farmers have been hard on their cars. At least a dozen cars have had the clutch, transmission or rear-end taken out while trying to work their way out of snow drifts.

Mrs. A. Fykes and son were Lethbridge visitors on Saturday.

H. L. Whittle was a business visitor in Vulcan last week.

Mrs. W. Gray spent several days in Calgary last week.

All roads throughout the district were blocked after Thursday's storm. The School was kept open last week as many of the country parents had made arrangements for their children to board in town. Even planes were called into service to transport residents stranded in town or those from town stranded in the country. We hope the worst of the drifting of roads is over.

Mr. and Mrs. Frank Bates and family spent Saturday in Lethbridge.

Mr. and Mrs. O. W. Jensen from Calgary visited with the former's parents, Mr. and Mrs. W. Jensen on Sunday. Mr. Jensen is confined to his bed again for a few days.

Mr. W. Russell spent the weekend in Calgary visiting with his daughter and son-in-law, Mr. and Mrs. Casement. Mrs. Russell has been in Calgary for the last three weeks.

Messrs. Delmar Shearer, J. Miller and J. Fraser are attending the Bonspiel in Vulcan this week.

Miss Dorothy Brownell from Calgary is visiting with her parents, Mr. and Mrs. Ed Brownell over the weekend.

Fred Jensen, from Sabula, Iowa is a guest at the home of Mr. and Mrs. G. H. Nelson this week.

Mrs. J. Gower spent last week visiting with friends in Lethbridge.

Friends of Mrs. Vilas Teskey will be glad to hear that she is home from the hospital, convalescing.

Mrs. Roy Church who has been taking medical treatment in the University Hospital, Edmonton, for the last three months, arrived home on Tuesday greatly improved.

D. Bond from Lethbridge has been a visitor in town for several days, looking after his business.

Mr. and Mrs. Ralph Stager and family visited in Vulcan at the home of Mr. and Mrs. Elmer Plourd.

Mr. H. J. O'Kane, who has been visiting with his daughter and son-in-law, Mr. and Mrs. Bob Hubka, for the last month, returned to Elk Point.

The West Country Women's Club met at the home of Mrs. L. Bach on Wednesday, only six members and two visitors were present. Donations were made to the March of Dimes. Mrs. Kelly won the raffle. A social afternoon was had while they played Bingo. A delicious lunch was served by the hostess and her assistant Mrs. Rosella Hubka. The next meeting will be with Mrs. Mary Clarke with Mrs. J. Gower assisting.

Congress may legislate until Doomsday, but the basis of our national economy is still an honest day's work.

The Milo school van resumed runs on Monday after a two-week layoff, due to impassable roads.

Matt Dawson of Calgary, recently of the Berrywater district was a recent visitor here, when he returned for the remainder of the family's furnishing.

The Advocate staff cannot make a house-to-house canvass for news every week, but we are always glad to have it phoned or handed in. We want all the news and are just as pleased to mention your guests or your visits as those of your neighbors—but maybe your neighbors co-operated with us in getting the facts. Phone your items in or drop them in at the office—as early in the week as possible. Your co-operation will be appreciated.

**Weak, Tired, Nervous,
Peppless Men, Women****Get New Vim, Vigor, Vitality**

"Luxury Liner"

Jane Powell — Lauritz Melchior
George Brent — Frances Gifford
In Technicolor

On the occasion of his 40th anniversary in the service of the Massey-Harris Company, Limited, President James S. Duncan, C.M.G. was signally honoured at a dinner in Toronto on January 5th. The function was attended by over 200 of Mr. Duncan's associates from the Canadian and U.S. organizations of the Company. On behalf of those in attendance, Vice-President, C. N. Appleton presented Mr. Duncan with a painting of himself executed by the outstanding Canadian portrait artist, Cleve Horne, R.C.A., O.S.A.

Expressing the esteem of the Company's employees in all parts of the world, Mrs. John Martin, Director of Public Relations, also presented Mr. Duncan with a

richly bound volume containing an illuminated address and the personal signatures of almost 14,000 employees in plants and sales branches in Canada, U.S., England, Europe, South America, Africa, India, China, Mexico, New Zealand, Australia and other lands.

In his speech of acceptance, Mr. Duncan recalled his early start in the Company's employ as office boy in the Berlin, Germany, branch in 1910. The following year he was sent to Canada where he gained experience in the plants at Brantford and Toronto and also as a member of the Ontario branch sales force. Returning to Europe in 1914 he earned rapid promotion in the business after serving with the British forces in the first world war

and was named European General Manager in 1931.

In 1933 he became General Manager of the South American branch and was recalled to Toronto in 1935 where he was successively General Sales Manager, General Manager, Vice-President, and, in 1941, was elected President.

"Since my earliest connection with the Company," he told his audience, "I have looked upon Canada as the greatest land of opportunity and promise."

In the picture above, Mr. Duncan is seen, left, accepting from John Martin the book containing 14,000 signatures of Massey-Harris employees throughout the world. The Cleve Horne portrait of Mr. Duncan forms the background.

Brief Items of Local Interest

Mrs. F. B. Clark of Calgary is at present spending a few days with friends and relatives in the district.

A fine photograph of four of Vulcan's young people, namely Maureen Wolfe, Betty Hill, Brian Todd and Harry Brown, appeared in Tuesday's *Albertan*. The boys and girls were shown inspecting a handicrafts display at the 'Tech' in Calgary.

Tommy Lebeau of Calgary is a bonspiel visitor this week, playing on the Earl Patriquin rink.

The annual meeting of the Vulcan Branch, Canadian Red Cross Society, will be held in the Legion Hall on Wednesday, Feb. 15, at 3 p.m. All those interested in the work of the Red Cross are asked to make a special effort to be present at this meeting.

Mr. and Mrs. Dave Hamilton were weekend guests at the Roy Fulton home enroute to Calgary from a holiday spent in California.

Friends of Mrs. Mel Emor, seriously injured in an automobile accident early in the winter, will be pleased to learn she has improved sufficiently to be moved from a Calgary hospital to the local one.

K. Roy McLean, Optometrist of Calgary, will be in Vulcan at the King Drug Store from 11 a.m. to 5:30 p.m. on Monday, Feb. 13. Consult Mr. McLean in his Calgary office, 1014 Greyhound Building, daily except Monday.

The Misses Donna Lloyd, Colleen Haverty, Sherrie Clayton, Lorraine French, and Darrel Mal-

Sympathy is extended to Corporal Jack Hurst on the death of his father at Kimberley, B.C. Thursday last. Cpl. Hurst left on Friday to attend funeral rites.

Word has been received in the district of the birth of a son recently to Mr. and Mrs. Howard McKay, at Vancouver, B.C.

David Saxby, young son of Mr. and Mrs. A. G. Saxby, had the misfortune to fall and break his arm while at play Friday afternoon.

The ladies of the Church of Christ held their regular meeting at the home of Mrs. J. Chapman this week. Mrs. Deans presided and Mr. Hansell was present to give an instructive talk. An interesting discussion about "Finding and Losing Things" was held at lunch time.

Word has been received here of the birth of a daughter, Sharon Rae, to Mr. and Mrs. Les Calvert of Fort Garry, Man., on February 1st. Mrs. Calvert is the former Miss Molly Craig.

Mrs. W. S. Hill entertained at a "Come and Go" Tea from 3 to 6 o'clock Saturday at her home in honor of her daughter-in-law, Mrs. Bill Hill, Jr., a bride of last week. Some 60 friends called during the afternoon, and were shown the many lovely wedding gifts by Mrs. Cameron Middleton. Presiding at the tea tables were Mrs. C. Ottewill and Mrs. W. A. Fitzpatrick. The rooms and tables were decorated with spring blooms, and assisting the hostess with serving were Mrs. Hill, Jr. and Miss Shirley Hill.

The Vulcan High School Students Union is sponsoring a dance in the L.O.O.F. Hall on Friday, Feb. 17. This will be a St. Valentine's dance and music will be by Hunter's Ramblers.

Mrs. K. A. Reitan of Calgary spent the weekend at the home of her parents, Mr. and Mrs. E. J. Loxton.

A Valentine Tea and Bake Sale (also a Doughnut Bar) will be held at the Legion Hall on Saturday, Feb. 18, sponsored by the Auxiliary to the Scouts and Cubs. 2:30 to 5:30 p.m. (1c)

Mr. and Mrs. Bert Somerville spent a few days in Calgary this week.

The Misses Eleanor Hyslop and Erma Graham spent last week in Calgary where they attended the Ice Cycles.

They accompanied by their instructor, Mrs. Roberta Davis will journey to Arrowwood Friday evening, where they will assist with the opening ceremonies of the new rink. The Vulcan troupe will perform fancy and figure skating routines.

Congratulations are being extended to Mr. and Mrs. Ronnie Marshall on the birth this week of a son, Wayne Irwin, weight 8 lbs. 3 oz., at the General Hospital, Calgary.

Steam railways in Canada have 42,335 miles in operation.

The Connaught Tunnel through Mount Macdonald in the Rockies is more than five miles long.
